

## Accepted English Abstract Titles

### Poster Presentation

- A 30-year-old female presented with atypical left lower abdominal pain
- A 40-year-old woman is experiencing early-onset diarrhea following surgery
- A 70-Year-Old Female with Lower Back Pain: A Case Study
- A Bell's Palsy Patient Developed an Acute Reactivation of Chronic Hepatitis B After Receiving Steroid Treatment
- A Case Report of Fungal Meningitis
- A Correlational Study of Head and Neck Cancer Patients with Symptoms Distress and Quality of Life
- A Patient With A rare Disease And Cerebral Hemorrhage Received Early Rehabilitation Intervention In The Intensive Care Unit.
- A STUDY ON DEMENTIA LITERACY IN TAIPEI CITY
- Acute Myocardial Infarction in a Young Adult: A Case Report and Clinical Implications for Early Diagnosis and Health Education
- Analysis of the Correlation between Physiological Assessment and Ventilator Weaning
- Application of 「Guidelines for Perioperative Care in Elective Colorectal Surgery」 in a 71-year-old female patient with colon cancer
- Bone Cement Emboli Into Right Ventricle After Percutaneous Vertebroplasty: A Case Report
- Case Report of a 29-Year-Old Female Presenting with Bone Marrow Involvement
- Case Report on the Use of Silver Ion Dressings to Improve Leukocytoclastic Vasculitis
- Challenges in Diagnosing and Treating septic spondylodiscitis: A Case Report
- Challenges in the Management of Fever in a Patient of Bladder Cancer after Radical Cystectomy and Ileal Neobladder Reconstruction
- Clinical Assessment and Nursing Management of Illness Uncertainty in Brain Tumor Patients
- Development and Evaluation of a Simulation Training Program at Masters of Nurse Practitioners course in the Safe Management of Extracorporeal Membrane Oxygenation (ECMO)
- Discussion on improving the storage environment of high-level disinfected endoscopes: A reference
- Early Detection and Management of Infective Endocarditis Presenting as Abdominal Pain: A Case Study
- Effect of Resistance Training on Fatigue in Patients Undergoing Renal Dialysis
- Enhancing First Aid Knowledge through Gamification
- Enhancing the Effectiveness of Intensive Care Unit Nurses in ECMO Care: A Game-based Learning Approach
- Evidence-Based Application of Exercise Training for Improving Raynaud's Phenomenon in a Patient with Systemic Sclerosis
- Evidence-Based Application of Mindfulness-Based Stress Reduction in Improving Depression among Women with Breast Cancer
- Exploring healthcare providers' perspectives on the role of nurse practitioners in clinical care outcomes: a qualitative study
- Exploring Nurses' Shared Decision Making Attitudes and Communication Confidence
- Exploring the effects of enhancing the management capabilities for nurse practitioner using administrative training
- Feasibility of Generative AI for Assessing Clinical Evaluation Skills of Nurse Practitioner Novices: A Pilot Study
- Hypoxic-Ischemic Encephalopathy and Persistent Pulmonary Hypertension in Newborns: A Case Report on the Use of Therapeutic Hypothermia and Inhaled Nitric Oxide Therapy
- Iatrogenic Iliac Arteriovenous Fistulas Associated With lower leg swelling- A case report
- Implementation and Outcomes of ERAS Protocol in Lumbar Fusion Surgery: A Case Study
- Improving the Prognosis of Ventilated Patients Through the Implementation of the Awakening (A), Breathing (B), Coordination (C), Delirium management (D), and Early Exercise or rehabilitation (E) Bundle Care Model
- Investigating the effectiveness of virtual reality and exercise training on kinesiophobia in coronary artery disease patients: a protocol for a trial
- Lactic Acidosis Caused by Linezolid in a Patient with Methicillin-Resistant Staphylococcus Aureus Bacteremia
- Mesenteric Ischemia Following Lower Limb Vascular Surgery in a Patient with Superior Mesenteric Artery Calcification
- Nutritional Intervention on Nutritional Status, Quality of Life and Mortality in Patients with Acute Heart Failure.
- Pembrolizumab-Induced Stevens-Johnson Syndrome in Lung Adenocarcinoma: A Case Report
- Polymyalgia Rheumatica Complicated by Nephrotic Syndrome in a Nonagenarian: A Case Report  
- Possibilities of the role of a nurse practitioner considered through clinical training -
- Prevalence of Breakthrough Pain of Cancer Patients in Taiwan
- Primary Management and Sternotomy in Malignant Thymoma with Concurrent Myasthenia Gravis: A Case Report
- Reducing Surgical Site Infections through Comprehensive Interventions
- Single small-cell neuroendocrine tumor of urinary bladder post laser en-bloc resection : A case report and literature review
- Suspected Hemophagocytic Syndrome induced by Systemic Lupus Erythematosus
- Taking care of patient who received well palliative care and withdrawal life sustaining system in Respiratory Care Centre (RCC).
- Targeted Temperature Management in Traumatic Brain Injury: Enhancing Neurological Recovery and Patient Outcomes
- The Case Report of a 56-Year-Old Man Presenting with Refractory Ascites
- The Exploration of Work Stress and Perceived Health Status of Nurses in COVID-19 Dedicated Hospital
- The Investigation of the Relationships Between Work Stress and Quality of Life in Two-Year New Staff.
- Using cross-team care to improve the self-care ability of heart failure patients

### Oral Presentation

- Advancing Health Equity for Technology-dependent Children and Their Families: Facilitating factors for role development of Nurse Practitioners using PEPPA-Plus framework.
- Effectiveness and Satisfaction of Using an Information Platform for ICU Nurses Learning Intra-Aortic Balloon Pump (IABP)
- How to reduce the occurrence of delirium patients in adult intensive care units
- Infective endocarditis with multiple septic emboli--A case report
- Management of persistent bacteremia and infection-related thrombosis following major hepatectomy and bile duct reconstruction: A case report and review
- The experience of self-management of blood pressure and health education suggestions in Stroke Patients
- The Impact Factors of Successful Aging among Community-dwelling High-aged Volunteers
